|---|---|
| Certificate CA | Do not validate / **do not specify server certificate** / accept the certificate when asked (self-sign certificate is used) |
| Authentication Method | **EAP-MSCHAPv2** (Windows specific: disallow use of Windows logon and password) |
| 802.1X Advanced Settings | Authentication mode = User Authentication (enter and save your credentials) |
| Certificate Authority (CA) | Do not validate / **do not specify server certificate** / accept the certificate when asked (self-sign certificate is used)<br><br>or<br><br>**USERTrust RSA** Certification Authority |
| Domain | **wifi.cerge-ei.cz** |

## Usage notes

- You can use your Wi-Fi access credentials for **all your devices**
- **Never give your credentials** to any other person!
- Each user must use his/her own credentials because of security rules and measures
- Please avoid any illegal network activities and always follow university rules
- If you lose your password you have to reset your account (use button **Reset account...** at the bottom of your registration page)
